

Appendix 3: The Area

1. The Agreement (sales and spare parts)

Within the primary area, Timan will not enter into agreements with new dealers.

End customers are free to choose which dealer they wish to do business with.

If Timan is contacted directly, the lead will be passed on to the nearest dealer based on the customer's information.

If an end customer within this area wishes to order spare parts via Timan's webshop, this must be agreed in advance with the dealer. The dealer will then contact Timan, and invoicing will be handled through the dealer.

The gross price will be visible to everyone, while the final price to the end customer is to be agreed between the dealer and the customer.
